Frameworks and libraries: React JS, Next JS, Redux, Redux toolkit, Rest API, Axios and Fetch API.
CSS technologies: Pure CSS, Styled Components, Bootstrap, Material UI and Tailwind CSS.
Other: Github, No-SQL DB, Figma and XD.

Awards, Competitions and Extra-curriculars

Innovate Gaza Hackathon – Gaza Strip July 2021
We have got the top 5 in this programming and designing competition, which put us under pressure to make a full solution for the poverty problem based on a developing and designing a full website, and it's marketing and finance plan in just 5 days, which it was a big challenge for me and my team.
